scripty

Your AI script supervisor.

Catch drift. Keep your character.

On set, the scripty keeps continuity between shots. Our AI scripty keeps the correction, then carries it into the next generation and check.

A calm workspace. Real images lead.

Batch. Review one shot. Learned. Memory opens only when needed. Warm canvas, generous space, one clear action. No dashboard clutter.

Type and space

Inter Regular and Medium. Headline 56/64, section 24/32, body 16/24. Desktop: 1296px grid, 72px margins, 24px gutters. Mobile: 24px margins. 16px corners. 56px pill actions. Blue focus. Frame numbers alone use mono.

Voice and meaning

Confident, cinematic, a little witty. One thought per line.
“Noted. On the next take.” Success follows a real save.
Red means drift. Gold means memory. A green dot is a monitor result, not human ground truth. Memory adapts prompts; model weights stay fixed.

Motion with a job

200ms marker/drawer; 180ms saved rule; 220ms comparison reveal. Reduced motion shows the final state. No glow loops or decorative timers.
